This paper is pleased to acknowledge receipt of an invitation to attend a recital at the Southwestern University at Georgetown, Monday, April 30, 1923, at 8:15 P. M., when Etelka Evans, Dean of Music, presents Miss Irene Saathoff, violin, in Senior Recital, assisted by Miss Ruth Harlan, Expression, and Miss Willie Whitworth, at the piano, at the University Auditorium. Other Hondo musicians have received honors in the past but to Miss Saathoff comes the distinction of being the first to receive the Degree of Bachelor of Music. She specializes on the violin, that time-honored but ever popular old instrument that has moved more hearts with its melody than any other known to the musician. The many friends of this talented young lady congratulate her on her progress in her favorite study and wish her unbounded success. She is the eldest daughter of Prof. and Mrs. W. N. Saathoff and was reared in our little city where her talent has been recognized from her early childhood.

Any one expecting to ship to the native yards at Ft. Worth or to any other state should write me or ring up at least one week before they expect to make such shipment, as there are some new regulations governing these shipments. All cattle going to the Southern yards go on as formerly on a B permit.

Very truly,
E. J. MURRAY,
County Tick Inspector.

A SUDDEN DEATH.

News was received in Hondo Thursday morning of the death of Mr. D. L. Williams at his home, near Yancey, Wednesday night. Deceased was in Hondo Wednesday apparently in his usual health, and news of his death was a great shock to our people. The cause of death is given as Angina Pectoris by his physician, or what is known to laymen as high blood pressure.

Besides his wife, deceased is survived by several children, several of whom reside outside of the state. He has a son quite a noted lawyer in New York city, a daughter living at Natick, Massachusetts, a son in Los Angeles, California, one daughter engaged in teaching at Boerne, Texas, a son living at Junction, and two sons at home. Another daughter, the wife of Mr. Tom Gilliam, resides in Zavala county. He may be survived by other children of whom we are not advised.

Up to the hour of going to press if any funeral arrangements had been decided upon we were not advised. This will probably depend upon whether or not his children in other states will try to be present at the funeral. The remains have been embalmed, and it is possible the funeral will be delayed some days.

In the passing of Mr. Williams Medina County has lost a good citizen and his passing has caused profound sorrow to our people.

Later—We have been advised that the remains were buried in the Yancey cemetery at 11.00 o'clock Friday, it being impossible for his children living out of the state to reach here in time for the funeral.

There was a considerable falling off in carload shipments for the week, a total of but eleven cars being handled, nine out and two in as follows: outbound, 6 cars of corn, 2 of hay and 1 of livestock; inbound, 1 car of oil and 1 of gasoline.

One of the biggest land deals that has been consummated in this county for a considerable time was closed this week whereby J. W. Ulbrich purchased from August E. Schuehle 3100 acres, the purchase price being \$29,000.00. The land involved in the deal was formerly a part of the old Henry Rothe ranch. Besides the pasture land a farm of approximately 150 acres is included in the deal. Judge L. J. Brucks negotiated the transaction.

Col. W. B. Odum returned Thursday afternoon from a several days visit in Austin. The Colonel gives a rather gloomy picture of crop conditions along the route, especially between San Marcos and the capital City. Owing to the cool nights the plants are small and the land very foul, the rains keeping the land so wet that cultivation is impossible. He saw farmers in the fields trying to clean their crops with hoes, the land being too wet to plow. He predicts a considerable acreage in that section will have to be abandoned owing to impossibility of cleaning.

EASTERN STAR PARTY.

On Wednesday afternoon, Mrs. F. S. Cockrell entertained the officers of the local chapter and the out of town guests with an Eastern Star party, honoring Mrs. Dr. Hudson, Matron of Sabinal, Miss Florence Horner, Past Matron of Uvalde, and Mrs. Kyle Bradley, a new member.

The guests were handed varicolored strings which they followed to the ends, finding an assortment of ridiculous favors, and then they were assembled to draw, blindfolded, their idea of a grand officer as personified by Miss Horner. The cleverest sketch was made by Mrs. Eugene Mofield who was awarded a corsage of violets. The sketches were put in a dainty hand-painted book, designed by Mrs. Vernon King, and presented to Miss Horner for a remembrance. On receiving a square of tissue paper, each guest was requested to tear out a cat—and some terrible figures were then designed in the name of the feline species.

The decorations were bowls of each star point color—red lillies, yellow roses, blue violets, green fern, white roses and lillies—and all over the house balloons of same colors were suspended, and these the guests received as favors. Mrs. Kyle Bradley was presented with a photograph of Master Thomas Cockrell in his costume as ring-bearer at Mrs. Bradley's wedding, Miss Horner with a silver etched sugar and creamer, and Mrs. Hudson with a set of water glasses. Mesdames O. E. Lacy, T. C. Barnes and Roland Chancey assisted Mrs. Cockrell in serving refreshments of the same five colors of the star—green ice parfait with cherries, marshmallows, and yellow macaroons, with plate favors of violet corsage bouquets. On each plate was a slice of beautifully designed cake made by Mrs. Hugo Schweers for Miss Horner, a five-colored star of angel food.

The guests included Mesdames O. E. Lacy, Dr. Hudson, R. H. Hudspeth, O. A. Fly, B. R. Bradley, Eugene Mofield, D. Huff, Roland Chancey, Kyle Bradley, T. C. Barnes, Vernon King, Earl Starnes, Ben Oefinger and Misses Helen Lacy, Maggie Cameron, Emma Muennink, Willa Mae Gaines and Miss Horner.

[F. F.]
EASTERN STAR MEETING.

The Eastern Star members held their regular meeting Tuesday night and immediately following it their reception for the district deputy. The visiting matrons and patrons from other chapters included Rev. Foster, Rev. and Mrs. Brown, Mr. Redus and Brown of Devine, Miss Horner of Uvalde and Mrs. Dr. Hudson of Sabinal. The officers entered the chapter room led by Mrs. Inez Carter in one of the prettiest drills that the lodge has ever had. Mrs. Carter was warmly congratulated on the figures and skill with which she had conducted the march. The officers included Misses Maggie Cameron, Emma Muennink, Willa Mae Gaines, and Mesdames Horace Bradley, B. R. Bradley, O. E. Lacy, Earl Starnes, Ashbel Gilliam, J. L. Thomson, O. A. Fly, Roland Chancey, R. H. Hudspeth and F. S. Cockrell.

Mrs. Kyle Bradley was initiated into the order, and after speeches from the visitors, Miss Horner of Uvalde Chapter, the deputy, addressed the chapter, expressing pleasure at her visit and congratulating them on their work. The tasteful arrangement of decorations was carried out by Mrs. T. C. Barnes and Mrs. Vernon King. Refreshments of ice cream and cake, with plate favors of sprays of violets were served by Mrs. O. E. Lacy, Mrs. Earl Starnes, Mrs. Roland Chancey and Mrs. Ben Oefinger.

WITH THE DRILLERS.

News from the drillers the past week has been rather meagre, the weather continuing to interfere with operations. The most important if true comes from the Brown well on the Geborge E. Schmidt ranch. It was rumored on the streets here Thursday that this well was showing a daily production of about five barrels. We have been unable to verify the report.

A well has been spudded in on the Francisco by the Young Company on a site selected by a representative from the geological department of the State University, but we are not advised as to the progress being made.

THE RAIN.

Rain has somewhat lost its value as a news item in this "semi-arid" section—it comes too frequent. After several days of misty, threatening weather old Jupiter Pluvius got back on the job right Tuesday night, and as a result of his visit Judge Haass' rain gauge showed a precipitation of 1.45 inches. The rain was accompanied by some wind and one of the most vivid electrical displays witnessed in several years. The thunder at times was terrific, causing the earth to fairly tremble. But so far as we have heard, no material damage was done.

Apparently the rain was much heavier in the northern part of the county than in the southern, the southern portion only receiving about one inch of rain.

This rain will assure an oat crop, but unfortunately owing to the low price this crop has been bringing for the past several years, but a small acreage has been planted. Other field crops will be carried further toward maturity and the pastures will be immensely benefitted, and waterholes filled. Every one is looking forward to a prosperous year, and if the rains keep up good times are but a few months in the future.

As a result of the rain Tuesday night the Hondo river came down Wednesday on a little rise—just enough to run freely. This rise was the result of rain on the Verde and Williams creeks, tributaries of the Hondo. Williams creek was reported carrying a considerable flood, which shows the rain to have been heavier in the hill country than here. Live Oak Slough, Tehuacana and the other small streams south of town were also slightly swollen—not enough, however, to do any damage.

Another vivid electrical storm passed over this section Thursday night, accompanied by .23 inches of rain. There was a report in Hondo Friday morning to the effect that a destructive hail storm and a deluge of rain fell in the Yancey section, and the western part of the county, but we were unable to verify the report up to the hour of going to press. The rain-fall in the immediate vicinity of Hondo for the week ending Friday morning totaled 1.68 inches.

TO STUDY IN FRANCE.

Wallace Heath, a Hondo boy, will sail from New York on June 10th, for France, where at Fontainebleau Palace, he will take a post graduate course in his profession, that of architecture engineering. Besides Wallace, Dr. S. E. Giddon, an instructor in the Architectural department, and several other students of the State University will be members of the party.

From our understanding of the matter, several universities of the United States and the French universities have inaugurated a system of exchanging students whereby those showing exceptional aptitude in their line of study will be given the advantage of studying in both countries, hence the securing of one of these appointments is regarded as a great honor. The party will return to the States in October, but whether or not Wallace will again enter the State University or whether he will open an office and begin practice of his profession, has not as yet been fully determined. However as he has received some flattering offers, it is possible he will adopt the latter course.

The people of Hondo, who feel a decided interest in this young gentleman offer congratulations for the success he has thus far won, and trust he will receive greater honors in his European studies. Bon voyage, a safe return and a prosperous business career is the wish of all for this native son of Hondo.

GRAND JURY REPORT.

Before adjourning for the term last week, the grand jury submitted the following report to the court: STATE OF TEXAS, County of Medina.)

In the District Court of Medina County, Texas, Spring Term, 1923.

To the Honorable R. H. Burney, Judge of Said Court:

The Grand Jury, appointed by your Honor to serve for the aforesaid term of said Court, begs leave to report as follows:

1. We have inquired into alleged offenses committed within this county, of which we collectively or individually had knowledge, or which has been called to our attention by the records of examining trials, or by the officers and citizens of this county, and have in every instance wherein the evidence appeared sufficient to us, returned true bills of indictment which have heretofore or are herewith presented in open court before your Honor.

2. We have visited and inspected the county buildings and premises and find same in substantial condition and agreeably sanitary.

3. We find that prisoners confined in the county jail are suitably and properly provided for in all necessary matters, and are afforded especially wholesome food in generous quantities.

4. We find that recommendation No. 1 of the last Grand Jury appointed for this county at the October term, 1922, of this Court has been fully and appropriately carried into effect, to wit: In obedience to the order of the Court, recorded on page 118, Vol. 8, Minutes of the District Court of Medina County, said Auditing Committee met on April 10th, 1923, and have completed an audit of the books of the county, which committee report was filed with the Clerk of this Court April 17th, and which report we have fully considered and approved. We therefore recommend the following:

First, That report of the Auditing Committee be approved by the Court as correct and the same be ordered entered on the minutes of the Court.

Second, That Tax Collector F. G. Muennink, in so far as may be legally possible, be re-imposed to the amounts of the several credits to which he is entitled as indicated in section 6 of said report, and that he be notified to place to the credits of the various funds the shortage indicated to be due them by him in said section of said reports.

Third, That the recommendations of said Auditing Committee be made effective in so far as practicable; that recommendation (a) be made a rule of this court; that recommendation (b) be referred to the commissioner's court; and that recommendation (c) be complied with at the earliest practicable date.

Fourth, That said three members of the Auditing Committee be paid in accordance with the time stated in said report to have been occupied by them.

5. We find that recommendation No. 2 of the last Grand Jury has been satisfactorily complied with and that the county jail now appears secure against the escape of those confined therein.

6. We thank your Honor for the conveniences placed at our disposal, and having completed our labors ask to be discharged.

Respectfully submitted this 19th day of April, 1923.

H. F. WURZBACH, Foreman.

FROM THE BANDERA NEW ERA.

ROAD TO BE FIXED.

A surveying crew was at work this week on the portion of the Bandera-San Antonio road that crosses the corner of Medina county, which indicates that bids will be advertised for the construction of approximately three miles of first class highway, the work to be under supervision of the State Highway Commission. The sum of \$12,000 has been appropriated for this work, Medina county contributing \$3,000. This is known as State Highway No. 27, and under the new law the upkeep will be borne by the Highway Commission.

It now looks as if our fondest dreams are to be realized, after many months of weary waiting and much speculation as to whether or not we were ever going to get that awful piece of road fixed. Through the efforts of Mr. D. E. Colp, of the Old Spanish Trail organization, the appropriation was made possible and we will rejoice and be glad when it is finished and Bandera has a good road all the way to San Antonio.

Practically a daily at the Price of a Weekly. No other Newspaper in the World Gives So Much at So Low a Price.

The wide, wide world has become so narrowed by science that news from all-around the globe is printed in the current New York World, together with the views of nation builders, master men and leading women everywhere and particularly in the United States. No other newspaper is better equipped to give the news of the world at the time it is news than The New York World.

The Thrice-a-Week edition of The World is the greatest example of comprehensive journalism in America. It will keep you as thoroughly informed as a daily, which would cost five or six times as much. It is a unique newspaper, published three times a week, for \$1 a year. This is the regular subscription price and it pays for 156 newspapers. We offer this unequalled newspaper and Fletcher's Farming together for one year for \$1.25.

The regular subscription price of the two papers is \$2.00.

LADY GOT SO WEAK COULD SCARCELY STAND

After Suffering From Many Female Troubles This Lady Heard
Cardui and Took It, She Says, "Until I Was Well."

"SOME TIME AGO," says Mrs. Buena McFarland, of R. F. D. 2, Bostic, N. C., "I suffered a great deal with weakness common to women. I had bearing-down pains, my sides and back hurt, and my limbs drew. I would get so weak in my knees I could scarcely stand. 'I was very nervous, and could not rest. I didn't feel like eating. I grew thin, and did not have ambition for anything. 'I had been trying other remedies . . . but did not get any better. 'Some one told us of Cardui, and what it was recommended for. I also

took a Ladies Birthday Almanac read of a case something like mine told my husband to get it and I try it. 'I saw a great improvement after the first bottle (of Cardui), so I kept until I was well. Now I am the picture of health.' Thousands of other women have been told of the beneficial results obtained by taking Cardui, and to recommend it to others. Cardui has stood the test of extensive use, for more than forty years, in the treatment of troubles common to women. Try it.

A Cheerful, Handsome Home

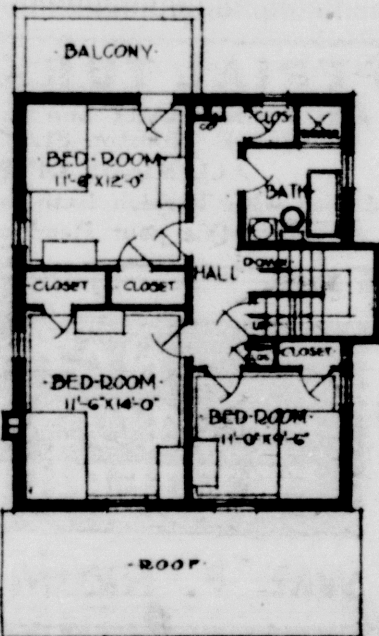

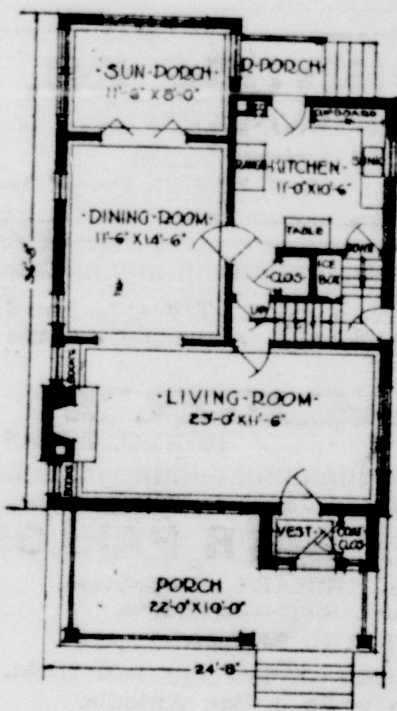

The Naranja—Design A-605

Before investing one's savings in a home and arranging to pay further sums by installments, over a period of several years, it is wise to examine the house very thor-

oroughly from an investment point of view. "Before you invest, investigate" is always sound advice. It is to be expected that a home built of material with the lowest upkeep cost, and having the slowest depreciation, will look best on the balance sheet. The safest and wisest investment, in fact, is a permanent home of brick. One striking feature of brick home ownership is that the savings in upkeep alone more than wipe out the slight difference in first cost over less

permanent construction before the house is paid for. In other words the less permanent house actually costs more than the brick house, although the sale or contract price may be less. It is cheaper to own than to rent, when your house is built of brick.

And the Naranja is a good example of a well designed brick home, which will fit any ordinary suburban lot and leave ample room at each side. It measures only twenty-four feet wide by thirty-six feet, eight inches in depth. The front porch is large and roomy, the line of travel between front door and steps being kept to one side. It is a six room house with a sun porch in addition. The shower in the bathroom is a welcome and unusual feature.

Brick Home of Beauty

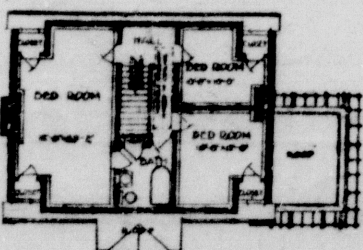

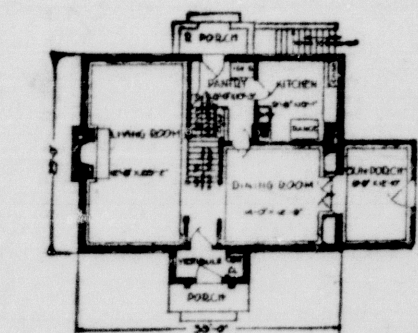

The Hiawatha—Design A-705

Just as a man's exterior appearance is a consequence of his inward ways of thought, even more so is this true of the house which he builds. The size of the structure and its location may, of course, be matters beyond its owner's control. The man of average means obviously cannot build a large and showy house or afford a lot in an expensive neighborhood. But no matter how small the house is de-

beautiful finish of the floor? That finish won't last long. Will the underlying construction develop defects that will mar the house and disappoint the owner? And what of the outside walls? Of all the points in construction which vitally affect the practical qualities as well as the appearance of the house, this is probably the most important. No man of average means can afford walls less permanent than brick. For beauty and attractiveness and warmth of effect, brickwork deserves a special niche in house construction. Brickwork forms its own beautiful finish, never needs any outlay for painting and repairs, and grows more beautiful year by year. It is cool in summer and warm in winter. Counting upkeep cost until paid for, the brick house always costs least.

The Hiawatha is the design of one of America's foremost residence architects. Its beautiful exterior is a natural development of the well arranged floor plan.

erected by circumstances to be, and no matter where it is placed, it can bear indications of refined taste and proclaim to the world its owner's good judgment.

And good judgment concerns not only exterior appearance and arrangement of plan, but goes behind the finish and weighs the merits of the materials used in the construction. What is behind the plastering? What lies under the

IF BILIOUS, SICK! TAKE NO CALOMEL

"Dodson's Liver Tone" Straightens You Up Better Than Salivating, Dangerous Calomel and Doesn't Upset You—Don't Lose a Day's Work—Read Guarantee

You're bilious! Your liver is sluggish! You feel lazy, dizzy and all knocked out. Your head is dull, your tongue is coated; breath bad, stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick, you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping.

If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver Tone tonight. Your druggist or

dealer sells you a bottle of Dodson's Liver Tone for a few cents. Each spoonful will clean your stomach and give you a good night's sleep. You'll be cheerful, vigorous and ambitious.

Dodson's Liver Tone is a vegetable, therefore harmless. Not salivate. Give it to your
